

PROJECT SUMMARY REPORT

Updated 11-21-06

Cemetery Improvements

Several capital improvements for Mt. Hope Cemetery are in process including:

- New water lines have been installed by City Staff to many areas of the old section of the Cemetery. Cost was approximately \$8,000.
- Currently, information is being prepared to bid repair of the existing iron fence along Jackson Street, and fabricate/purchase new iron fence along Liberty Street. Adams Street will remain chain link but painted black.
- A preliminary study by Rowe Engineering of the Cemetery roads was completed including soil borings, recommended repairs, and cost estimates. Road repair will be further considered following the water line and fencing projects.
